

DR Rip – talks about rips, sand, waves and beach safety.

Where – Kiama SLSC – 27th December at 10am

Shoalhaven Heads SLSC – 28th Dec at 10am

Mollymook SLSC – 28th December at 2pm

Come and learn from one of the world's foremost authorities on rips – what are they, how are they formed – most importantly, how to identify rips

See a Rip once Dr Rip throws his purple dye into the water at each of these talks – see the way the water flows, how quick the rip runs and see how far out it goes.
